## DEAR HIRING MANAGER,

I am a software engineer with:

- Years of hands-on experience.
- Front-End development skills with HTML, CSS(Bootstrap) and JavaScript(Typescript, React, Redux.js).
- Back-End development skills with Python(Django and Flask).
- Machine learning and AI development skills with TensorFlow, Pandas, NumPY and OpenCV.
- Database management skills with SQL with databases such as MySQL, PostgreSQL and MongoDB(MQL).

If you are looking for a full-stack web, bot, API and AI developer feel free to contact me.  
You can also check my previous open source projects inside my Github.
